EXCLUDED/Param

Security Review of ORSENION under Field regulation 50-20

Reference: SGAA-2658

1. Although SCAN-982 did refer to "reviews of current operations" (as pointed out in SGAA-2658), Headquarters is also interested in making security reviews of certain operations which have been terminated in the fairly recent past. Of these operations ORSENION is one; we are particularly interested in it because of nature of the mission assigned to it. We shall therefore appreciate your reviewing it at an early date.

2. The Headquarters review of ORSENION will be forwarded to you in the immediate future.
